SUMMARY

QA Engineer with hands-on experience in Manual Testing, API Testing, Regression Testing, Sanity Testing, Test Case Design, Bug Reporting for web applications. Experienced in Agile methodology, Postman, and cross-browser testing. Skilled in defect tracking, test execution, and ensuring software quality through functional and non-functional validation.

SKILLS

Manual Testing: Functional Testing, Regression Testing, Sanity Testing, Smoke Testing, UI Testing, Cross-Browser Testing, Test Case Design, Bug Reporting, Defect Tracking, SDLC, STLC, Agile Methodology

API Testing: Postman, API Validation, Request/Response Testing

Bug Tracking & Test Management: Azure DevOps, Sprint Management

Database: SQL

Performance & Analytics: Chrome Lighthouse, Google Analytics

Technical: Java, HTML, CSS , Automation Testing: Selenium WebDriver

EXPERIENCE

Acoustte Digital Services

Junior Quality Engineer

Nov 2025 – Present

Panchkula, India

- Performed manual testing on web applications for functional and non-functional validation
- Designed, executed, and maintained test cases for multiple testing scenarios
- Conducted functional, sanity, and regression testing to validate application quality
- Performed API testing and request/response validation using Postman
- Identified, reported, and tracked defects using Azure DevOps in Agile sprint environments
- Conducted cross-browser testing and validated application behavior across multiple scenarios
- Analyzed website performance using Google Analytics and Chrome Lighthouse insights
- Collaborated with team members and client through meetings and email communication

Wipro Ltd.

Associate

Feb 2025 – May 2025

Bengaluru, India

- Studied and analyzed project testing requirements and scenarios
- Prepared and executed manual test cases and documented test results
- Tested media playback functionality across different browsers, devices, and network conditions
- Performed defect identification and reported observations during testing activities
- Participated in test execution and quality validation processes

PROJECTS

Web Application Testing Project

GitHub

- Designed and executed UI, functional, regression, and usability test cases for a responsive web application
- Performed cross-browser testing and documented defects in user workflows
- Conducted basic automation testing using Selenium for selected scenarios
- Validated application functionality and documented testing observations

EDUCATION

Panjab University

Master of Computer Applications (MCA)

Chandigarh, India

Panjab University

Bachelor of Computer Applications (BCA)

Chandigarh, India

CERTIFICATIONS & INTERNSHIP

• Software Testing Internship – GeeksforGeeks

- Learned software testing concepts including manual testing, test case creation, and defect reporting
- Performed UI validation and Selenium testing
- Gained practical exposure to software testing workflows and quality assurance practices
